Welcome to Term 3. Hopefully the school break has allowed you the opportunity to recharge the batteries in readiness for another busy and productive term. The teachers enjoyed a terrific professional development day on Monday in Eugowra. The day was facilitated by the Catholic Education Office with the focus being schools as professional learning communities. The 3 main ideas of a Professional Learning Community are:

1. **Ensuring that students Learn**
   - What do we want each student to learn?
   - How will we know when each student has learned it?
   - How will we respond when a student experiences difficulty in learning?

2. **A Culture of Collaboration** – Educators who building a professional learning community recognise that they must work together to achieve their collective purpose of learning for all.

3. **A Focus on Results** – Working together to improve student achievement becomes the routine work of everyone in the school.
